Bring Your Own Device (BYOD) User Charter

The BYOD initiative encourages students to use their own personal technology devices within classrooms for educational purposes only. The benefit for students using technology provides an opportunity to research, work collaboratively and share information and ideas. The use of BYOD is considered a privilege and any misuse of devices will result in disciplinary action.

Conditions of Use

1. Network and internet access-

The device must ONLY be connected to the school's wireless network DETNSW at school. Please ensure your device is network ready and capable of operating within the specifications of our network. Further information is available in the BYOD specifications and Minimum requirements.

2. Power & recharging

Devices are to be fully charged before each school day. No charging facility is provided for BYOD.

3. Technical support

Since the device is neither owned or serviced by the school, technical support for BYOD is not offered. Students are to consult the connectivity guidelines in order to connect to the school's wireless network.

4. Insurance and liability

It is the school's recommendation that all devices are insured for loss or damage. Northmead Creative and Performing Arts High School accepts no responsibility for the loss or damage of the device. We suggest you label the device with the students name for identification purposes. Students are accountable for any deliberate damage according to school's discipline policy.

5. Content & Copyright

All content including: photos, video, music, files and apps must be appropriate, as deemed by the school. A Parent/Guardian must certify that all content stored on the device is compliant with copyright law and regulations. Any use of a device deemed inappropriate by the school will result in the withdrawal of BYOD privileges.

6. Accessing loan devices

Loan devices are available from Technical Support Officer (TSO) for students who do not have a device to bring to school. Students are responsible for the care for these school-owned devices, and are required to sign a loan agreement before the device is released.

7. Registration of a device

All devices must be registered with the school, information should include: brand, model, serial number and description of device, ie colour, features, additional accessories and description of the physical condition of device. Please be specific about the device as this information will be used if it has being lost or stolen.
